

**Районная олимпиада по английскому языку 5 класс**

**Задание 1. Чтение. (10 баллов)**

**After-school activities**

young – молодой, should – следует, forget – забывать, if – если, decide – принять решение

Many pupils in our class go to different clubs after school. The last lesson usually finishes at 2 o'clock and we can go home to have dinner. Then the children go to sports clubs, chess clubs, art and music schools.

I decided to go to a music school when I was seven. Mum wanted me to play the piano and dad said that the guitar was better. But I chose the violin. You will ask me why. We had my grandfather's violin at home. I thought that we didn't need to buy a new instrument and started playing it.

Two of my friends go to the music school with me. My elder brother plays chess and my sister goes to an art school. She likes painting very much. There are three days of music school every week. Those who go to the chess club have classes two times a week. As for the sports clubs, some children go there three times a week and some have six days of training! Such people are professional young sportsmen and take part in competitions.

I think that everyone should have hobbies and time for them. Of course, you mustn't forget about your school and your homework even if your hobby is very interesting and takes you a lot of time.

Прочитайте предложения. Если они соответствуют содержанию текста, поставьте Т ( true), если нет – F(False)

1. Many pupils in the class go to different clubs before school. \_\_\_\_
2. The children usually go home at two o'clock. \_\_\_\_
