Task 1 – 4 points

Read the newspaper article from which four sentences have been removed. Choose from the sentences A – E the one which fits each gap (1 – 4). There is one extra sentence which you do not need to use.

- A. Latin is an instrument of thought and in Latin you can say what you mean clearly and precisely every time.
- B. Now the experts have discovered that, after all, there is no substitute for a study of the classics.
- C. Amazing because, until recently, nobody ever doubted that a classical education was the best preparation for life after school.
- D. We cannot do without it.
- E. A knowledge of Hungarian is much more useful than a knowledge of Greek.

Classical Education

I find it quite amazing that experts have just re-discovered the value of a classical education. [1] The men who created grammar schools understood this perfectly. But at some point in the recent past education ministers decided that the study of Latin and ancient Greek wasn't "modern" or "progressive" and in its place they introduced Russian or Hungarian or some other "living" language. [2] Most people who can think clearly about what they do and explain it to other people have profited from an education that included the study of Latin and Greek. [3] Someone who has studied Latin is in a much better position to begin the study of Greek. The British have always been the best Greek scholars, perhaps because there is some special relationship between the Greeks and the British or between Greek and English. Greek has provided the vocabulary for modern science and modern philosophy. [4]

I watched a lot of films. As for me, I prefer watching war films and films about animals. I always cry when I'm watching documentaries about war, but they are very fascinating and interesting.

I would recommend "The officers". I first saw it when I was ten. This film is about the Civil war and the Great Patriotic war. It is very hard film. But this story is touching. Every year my dad and I like to watch "The officers" on TV. It teaches us to love our family and country. In my opinion, all war films teach us patriotism. I think we should be grateful to our soldiers.
